SUMMARY

Backend-focused .NET Developer with hands-on experience building scalable RESTful APIs using C#, ASP.NET Core, and Entity Framework Core, backed by relational database design in SQL Server. Applies SOLID principles, Design Patterns, and Clean Architecture to write maintainable code. Also builds front-end interfaces with Angular and TypeScript. Collaborative problem-solver committed to delivering reliable software from concept to deployment.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework Core, JWT Authentication, AutoMapper

Frontend: HTML, CSS, JavaScript, TypeScript, Angular, Bootstrap

Database: SQL Server

DevOps & Cloud: Git, GitHub, Docker, Azure, Azure DevOps, AWS

Principles: OOP, SOLID Principles, Design Patterns, Clean Architecture, Repository Pattern, Unit Testing

AI Tools: Claude Code, Cursor, Agent Skills

PROJECTS

Flight Booking | *ASP.NET Core Web API, ASP.NET MVC, EF Core, SQL Server, JWT*

- Built a full-stack reservation platform with a Web API backend consumed by two MVC frontends (Customer and Admin panels).
- Implemented JWT Authentication and Role-Based Access Control to secure endpoints and separate customer and employee functionality.
- Designed the database with Entity Framework Core and Fluent API, including relationships and comprehensive data seeding.
- Developed business logic using the Repository and Service patterns and used AutoMapper for DTO management.

Master Market | *ASP.NET Core Web API, ASP.NET MVC, EF Core, SQL Server*

- Built a dual-project solution: a RESTful API and an MVC client application, both on ASP.NET Core.
- Implemented full CRUD operations for products and categories, with built-in search and filtering.
- Developed an MVC client that consumes the API for browsing products by category and managing data.
- Used Entity Framework Core with SQL Server for persistence and a clean service-layer architecture.

Game Zone | *ASP.NET MVC, SQL Server, Bootstrap*

- Developed a web application with ASP.NET MVC and SQL Server for managing game data.
- Implemented add, update, and delete operations for game entries.
- Built a responsive user interface with Bootstrap.

EDUCATION

B.Sc. in Computer and Information Science | Mansoura University | 2022 – 2026

.NET Development Diploma | Meta Classroom | 2023 – 2024

Frontend Training | NTI | 2024 – 2025

LANGUAGES

Arabic: Native | English: Good
